

MIRACLE MAX Royale VS-A705

Simple, Beautiful, & Easy to Use Under Counter Water Ionizer

Chanson Water is proud to present our new revolutionary under-counter metal smart digital faucet ionizer. A revolutionary new design

HD Touch Sensor Panel

- Most user friendly 65,000 full color operating panel/screen with pH, ORP, Flow rate, Filter life and different useful settings. | Smart phone multi touch sensor screen
- IPX4 water splash proof LCD screen – Touch sensitivity won't be affected even when water is on the LCD screen.
- Multiple Language – the new Royale not only comes in English language, but also German, Spanish, French, Italian, Portuguese, Polish, Czech, and Chinese, the most widely used languages in the world!

High Quality Stainless Steel Smart Faucet

- Lead Free Faucet – Passed U.S. lead free regulation AB1953
- Elegant and Sleek Faucet with single outlet – Chanson is the first on the market to introduce ionizer faucet with single outlet for better look and design and for durability of the faucet.

Mineral Insert Port

The mineral insert port allows the user to add minerals to the water to help reach desired pH levels for different uses.

Alkaline/Filtered/Acidic Levels of Ionization

Acidic Water Button

3 Selections of Acid Water
 • Low, Mild, & Strong Acid

Filtered Water Button

- Filtered water selection
- For medication
- Baby Milk

Alkaline Water Button

- 4 Selections of Alkaline Water (bold)
- Low, Mid, Standard, & Strong Alkaline

Lock Button

Lock feature makes sure that your preferred level of water is not changed. So you can enjoy your pH level all the time.

Power Saving Mode

Ionizer goes into stand-by mode (screen off) when it's not in operation for 1 minute for power saving and pro-long the screen life.

RAD Self Cleaning

Chanson is proud to introduce the RAD cleaning function on the Royale Ionizer. It helps to de-calcium the plates and prolong the life of the electrobath, and so increase the performance of the ionizer.

- Users are able to customize how often the ionizer does RAD self cleaning depending on users' water quality.
- After every use, the ionizer runs a self flush by itself to keep the electrobath cleaned at all time.
